FOR IMMEDIATE RELEASE

JERRY SUDDUTH Receives ASQ-Certified Quality Inspector

Milwaukee, Wis., 10/06/2012 — The Certification Board of ASQ (American Society for Quality) is pleased to announce that JERRY SUDDUTH has completed the requirements to be named an ASQ-Certified Quality Inspector - (ASQ CQI). As such, JERRY SUDDUTH has reached a significant level of professional recognition, indicating a proficiency in and a comprehension of quality principles and practices. Individuals who earn this certification are allowed to use "ASQ CQI" on their business cards and professional correspondence.

"ASQ provides certification as a way to provide formal recognition to professionals who have demonstrated an understanding of, and a commitment to, quality techniques and practices in their job and career," explains Jim Rooney, ASQ chair. "This is a great accomplishment and, although not a formal registration or licensure, it represents a high level of peer recognition."

In order to sit for the Certified Quality Inspector examination, an individual must have two years of experience related to the Body of Knowledge. The Certified Quality Inspector is an inspector who, in support and under the direction of quality engineers, supervisors, or technicians, can use the proven techniques included in the Body of Knowledge.

Since 1968, when the first ASQ certification examination was given, more than 170,000 individuals have taken the path to reaching their goal of becoming ASQ-Certified in their field or profession, including many of who have attained more than one designation.

ASQ is a global community of people dedicated to quality who share the ideas and tools that make our world work better. With millions of individual and organizational members of the community in 150 countries, ASQ has the reputation and reach to bring together the diverse quality champions who are transforming the world's corporations, organizations, and communities to meet tomorrow's critical challenges. ASQ is headquartered in Milwaukee, Wis., with national service centers in China, India, and Mexico. Learn more about ASQ's members, mission, technologies, and training at www.asq.org.
